WISHES FROM CHAIRMAN

Dear Teachers,

On account of Teachers day, I wish a very Happy Teachers Day to all of you in Shri Krishnaswamy group of schools and Shri Krishnaswamy College for Women. Your Profession is not only unique but noble one too, because you inspire, guide and lead the younger generation towards the right path. It is you, who play a major role in building the character of generations. It is a mammoth task. However, you teachers put your heart and soul into it. In short, you teach from the heart. For such a generous contributions to the society, I would like to applaud you and wish you all prosperity. In this connection, I would like to request you all to take proper care of yourself during the pandemic period because your role is imperative now and forever.

Dear Teachers,

Your impulse is beautiful footprint that has been in our heart & mind forever. Being teacher is the highest privilege & blessings.

HAPPY TEACHERS' DAY!

ABOUT TEACHERS' DAY

• The birthday of Dr Sarvepalli Radhakrishnan came to be celebrated as Teacher's Day when, one day, some of his students and friends requested him to allow them to celebrate his birthday. In reply, Dr. Radhakrishnan said, "instead of celebrating my birthday separately, it would be my proud privilege if September 5th is observed as Teacher's day". From then onwards, Dr. Radhakrishnan's birthday is observed as Teacher's Day all across India.

'Teaching is not a service

It is a great passion'

A small poem – Dedicated to all teachers

Role of a teacher

Teachers play a vital role

By inspiring every soul;

We make beautiful statues from unshaped stones,

And make them walk and stand on their own;

We nurture good deeds,

And clear the weeds;

We always strive for students greatness,

And we encourage them to come out of their darkness;

We are the 'roots' of this nation,

Where we plunge into the deepest ocean;

With all our fullest strength and courage

We toil months and years and we manage

We face many hardships, along with these 'sea creatures'

But we fetch only 'corals', 'pearls'

And 'Diamonds' for our future India

Teachers' Day Article

As correctly said by **Harry Truman**, "**If you can read this, thank a teacher.**"

A teacher is someone who acts as guide and inspiration to people both young and old. He / She is charged with the responsibility of creating awareness as well as opening the minds of the people by instilling values, morals and ethics

Teachers efforts are recognized during teachers' day. we annually celebrate their contribution to the development of society.

Teachers day is celebrated on different dates in different countries. In our country, India, we celebrate on 5th September every year to commemorate the birth anniversary of **Dr. Sarvepalli Radhakrishnan - First vice president of independent India and Second President of India**. He worked as a professor (1918-1932), and Spalding professor at University of Oxford (1936-1952) by which he became the first Indian to hold a professional chair at the University of Oxford. He was upton lecturer at Manchester college. He was appointed as Haskell lecturer at the University of Chicago. He was awarded with several high awards during his life including Bharat Ratna in 1954.

While globally, Teachers' day is celebrated on 5th October, in India it is celebrated on 5th September from 1962 onwards.

"Every individual is an enlarged replica of their teacher."

**"We cannot always build the future of our youth
but we can build our youth for the future."**

Teachers are the ones who establish young minds and thus indeed are the Nation-builders.

Sir Isaac Newton once said, "**If I have seen further, it is by standing on the shoulders of giants.**"

What we gain from our teachers, our parents, everyone who guides us is no less than that from a giant. Teachers are the beacons who empower us to make the wind favorable to our journey and help us set sail to reach further academically and socially

The hard - work and efforts that teachers put in building the future citizens of our nation should always be appreciated and applauded. A thank you can go a long way. In our busy lives, we have come to forget expressing gratitude. Many studies have come up explaining the benefits can have on the one who expresses it and on the one who receives it. Let this day be an opportunity to express gratitude to all the teachers. Celebrating Teachers day is just a way of thanking and showering love to all those who have been a part of the student's learning, development and have contributed in making them human.

A Tribute to my Teachers

Education is an essential part in our life. We are nothing without education. School serves us the first learning place for most of us. My school is my second home where I spend most of my time. I feel blessed to study in one of the most prestigious and esteemed schools of the city which is none other than Shri Krishnaswamy Mat. Hr. Sec. School. I feel proud to say that I am the second generation of my family, studying in our school. So I am the right person to speak about my teachers on this auspicious day.

I would say that my teachers made us realize our own potentials. They taught us – social skills respect, self-worth and empathy. School is a place where I learnt to face challenges with grace and charm. My teachers developed a great level of self confidence in me and so I never give up my ambitions no matter what happens. I aspire to carry on the values taught in my school, because of my teachers who believed in me, I also learned that I am capable of more than I thought. I am fortunate enough to have such wonderful teachers.

Our principal is very strict to keep us safe. She gives great importance in inculcating good manners and building character among the students. She addresses the morning assembly everyday with her elegant speech.

Our Vice Principal plays a vital role. He used to guide us gently. He is a good counselor.

I never forget my teachers. Teachers impart knowledge, values and virtues. They play a vital role in our lives such as guru, guardian, guide, mentor and no one can deny that they are our second mother. Teachers have great love for their subjects and they take us beyond the text and create interest and as a result we will be much more involved in the subject without any distraction.

They are always on their toes and keep unruly students and rule breakers at bay. In short, our teachers are the heart and soul of our school. We shower our teachers with our cheers and warm greetings on this special day.

I conclude with Dr. A.P.J. Abdul Kalam's quote, "I believe there is no other profession in the world that is more important to society than that of a TEACHER "
